

Product Information Sheet

Floor Base Sealer #6

Floor Sealer

Description

Floor Base Sealer #6 is a water-based permanent acrylic sealer for concrete, stone and similar hard floor surfaces. Floor Base Sealer #6 gives floors a clear, protective coating which assists in resisting stains and protecting floors from stripping whilst shielding floors from the harsh effects of weathering, spillages, and traffic. Floor Base Sealer remains intact during stripping ultimately reducing the need for resealing after every strip cycle. Consequently, product usage and labour costs are reduced resulting in increased efficiency.

Features and Benefits

- Ideal for the following floors: Concrete, stone, quarry tile and similar hard floor surfaces.
- Excellent for prestige floors and all busy floors, including shopping centres, hospitals and commercial buildings.
- Resists stains that easily penetrate and discolour floors. Discolouring is often permanent.
- Excellent non-yellowing properties.
- Metal-free floor sealer concentrate. Low sensitivity to amine-containing strippers.
- Floor Base Sealer is not removed during stripping, providing a protective barrier between the floor and stripping pads.
- The ability to remain intact during stripping reduces the need to reseal floors after every strip cycle.
- Self-levelling. Provides a consistent and even coating across floor surfaces.
- Covers a large floor space per litre.
- Outstanding seal for resilient floors and interior concrete.
