supplies

Our mission is to invest in a sustainable future for Indigenous communities.

We believe Indigenous Peoples are critical partners and stakeholders within Australian society and our mission at Wirrpanda Supplies is to invest in a sustainable future for Indigenous communities.

David Wirrpanda is an accomplished and well-known former AFL player with 13 years of top level footy under his belt. Throughout his playing career, David was known for his hard work, passion and dedication. Since retiring from professional football, David has directed his energy into the Wirrpanda Foundation with the aim to support Indigenous communities.

David's goal is to improve the quality of life for Aboriginal and Torres Strait Islander people and build sustainable communities. In the process, he has become a respected Indigenous leader and mentor.

David identified an opportunity to close the loop between the education and training provided by the Foundation and employment opportunities for Indigenous youth.

As such, Wirrpanda Supplies was established as a joint-venture between David and Chemform, a 40-year-old family owned Australian company that manufactures and supplies cleaning products around the country.

The intention is to utilise the Foundation and create a direct pathway for young people to complete their training and transition directly into employment.

As majority owner and Managing Director, David Wirrpanda has three critical business pillars to help achieve his mission. These include:

David Wirrpanda | Managing Director

WIRRPANDA FOUNDATION

Wirrpanda Supplies contributes 3% of all sales profits to the Wirrpanda Foundation.

The Wirrpanda Foundation aims to improve the quality of life for Aboriginal and Torres Strait Islander people across four pillars of education, employment, justice and sport.

COMMUNITY SUPPORT

David Wirrpanda and Wirrpanda Supplies work closely with Indigenous communities to empower and build capacity amongst Indigenous individuals and their families.

We recognise that Indigenous Peoples often experience special connections to and identification with, lands and waters and these are tied to their physical, spiritual and cultural well-being.

We understand that taking care of the earth is everyone's responsibility and as such is a high priority for our business. To achieve this goal, we have formulated our WIRRA GREEN range of products. The WIRRA GREEN range of products deliver performance, quality and safety, as well as environmental sustainability.

Tailored products & systems for a range of industries.
