

Product Information Sheet

Heavy Duty Graffiti Remover #14

Removes spray paint and permanent ink from hard surfaces.

Description

Heavy Duty Graffiti Remover is used to remove spray paint and permanent ink from hard surfaces including masonry, concrete, brick, and painted surfaces coated with epoxy or polyurethane-based paints.

Features and Benefits

- Viscous gel adheres to surfaces allowing more contact time for better results.
- Ideal for a range of surfaces.
- Non-flammable, non-corrosive.
- Classified as a non-dangerous good.
- Low odour.
- Fast acting removes all graffiti quickly and effectively.

Use Directions

Graffiti Removal from Painted or other Hard Surfaces

Apply the gel to a dry rag and wipe the surface until graffiti is removed. The clean surface should then be wiped with a wet sponge/rag or paper towel to remove residual formulation and prevent blistering of the underlying paint.

Graffiti Removal from Unpainted Brick, Concrete or Metal

Apply the gel using a paint brush, roller, or clean rag. Let stand for at least 2-5 minutes then rinse off with cold, medium, or high-pressure water. A power washer is recommended to remove the last traces of solid pigment imbedded in the brick or concrete. Allow the surface to dry and reapply if necessary. Heavy Duty Graffiti Remover is an effective paint stripper and will rapidly strip interior or exterior latex, acrylic, and alkyd paints. It should not be used to remove graffiti from surfaces coated with these types of paints.

Do not use Heavy Duty Graffiti Remover on plastic, vinyl, or rubber surfaces without testing first.

Safety Information

Refer to our safety data sheet (SDS) for more information or consult your Wirrpanda Supplies representative for further assistance.
